Hello Michael,

Justin suggested I forward this decision document for GM's 2013 on-highway diesel engine family. Please let me know if you have any questions or comments.

Sincerely,

Jay Smith

Subject: GM Duramax

I've completed the review of GMs Duramax engine family and wanted to check in with you before I clear it for cert, since its the first 2013 on-highway CI engine I've reviewed. This is a carry-over family and the most major change is that they've raised their NOx FEL from 0.42 to 0.50, which allows their **CBI / Ex. 4** meet the requirements in our guidance. They plan to maintain this

CBI / Ex. 4

The decision document is attached below. Please let me know if you see any concerns.

Thanks,
Jay
